# Terre

La colección Terre reinventa los pavimentos de tipología terracota. Esta palabra proviene del Latin terra cocta y denomina la arcilla endurecida al horno que se ha utilizado en el pasado tanto para crear elementos decorativos como para revestir suelos. Esta nueva colección rompe con el concepto de pavimento terracota cuadrado al haber sido concebida con un elegante formato rectangular 25x100cm en porcelánico. La múltiple y rica variación cromática de las tres tonalidades de esta moderna serie aportará una sensación de calidez, naturalidad y elegancia además de un indiscutible toque único que garantizará la libertad creativa de las personas más exigentes. La colección, además, se complementa con un acabado anti deslizante en el tono Rosso que permite vestir cualquier espacio público o zona de exterior con tonos tierra y envolventes de un actual carácter rústico.

Collection Terre is a reinvention of traditional terracotta floors. The word terracotta means "baked earth" and it comes from the Latin words terra cocta that refers to the clay-based earthenware used in the past to create decorative elements as well as to use as floor tiles. The aim of this new collection was to break the concept of the typical square shaped terracotta floor by creating an elegant rectangular format – 25x100cm – in porcelain. The multiple and rich chromatic variation of the three different tonalities of this modern collection will provide a feeling of warmth, ease and elegance in addition to an undisputed unique touch that will ensure creative freedom to the most demanding individuals. The collection is also complemented with an antislip finish in the Rosso tone that will enable its application in public spaces and outdoor areas with soft, enveloping tones with a current rustic look.
