Hygienic Surfaces

BALDOCER

01. New range of antimicrobial products

Baldocer presents its new range of hygienic products B|Healthy, a list of new collections subjected to treatments that guarantee antimicrobial protection to surfaces through the application of new technical glazes capable of stopping the reproduction of bacteria, ensuring a healthy environment, free of dirt and unpleasant smells.

The new technology that we apply to our ceramic tiles is the most suitable for use in all types of environments, especially where bacteria can proliferate, such as in humid areas with high temperatures. Ideal for the home and especially suitable for areas that require high performance in hygiene, cleanliness, safety and easy of maintenance, such as hospitals, clinics, residences, schools, industrial kitchens, shopping centers ...

B|Healthy guarantees
an hygienic and healthy relationship
between ceramics and surroundings.

02. What B|Healthy offers?

Security

Suitable for all types of installations that require hygiene and cleanliness guarantees with convenient maintenance.

Longevity

More durable tiles thanks to the fact that we avoid the degradation of the ceramic that can cause bacterial colonizations.

Disinfection

The antibacterial action of glazes makes our ceramic pieces an ally of health where it is installed and also helps to avoid the appearance of dark areas and bad smells.

Escherichia Coli

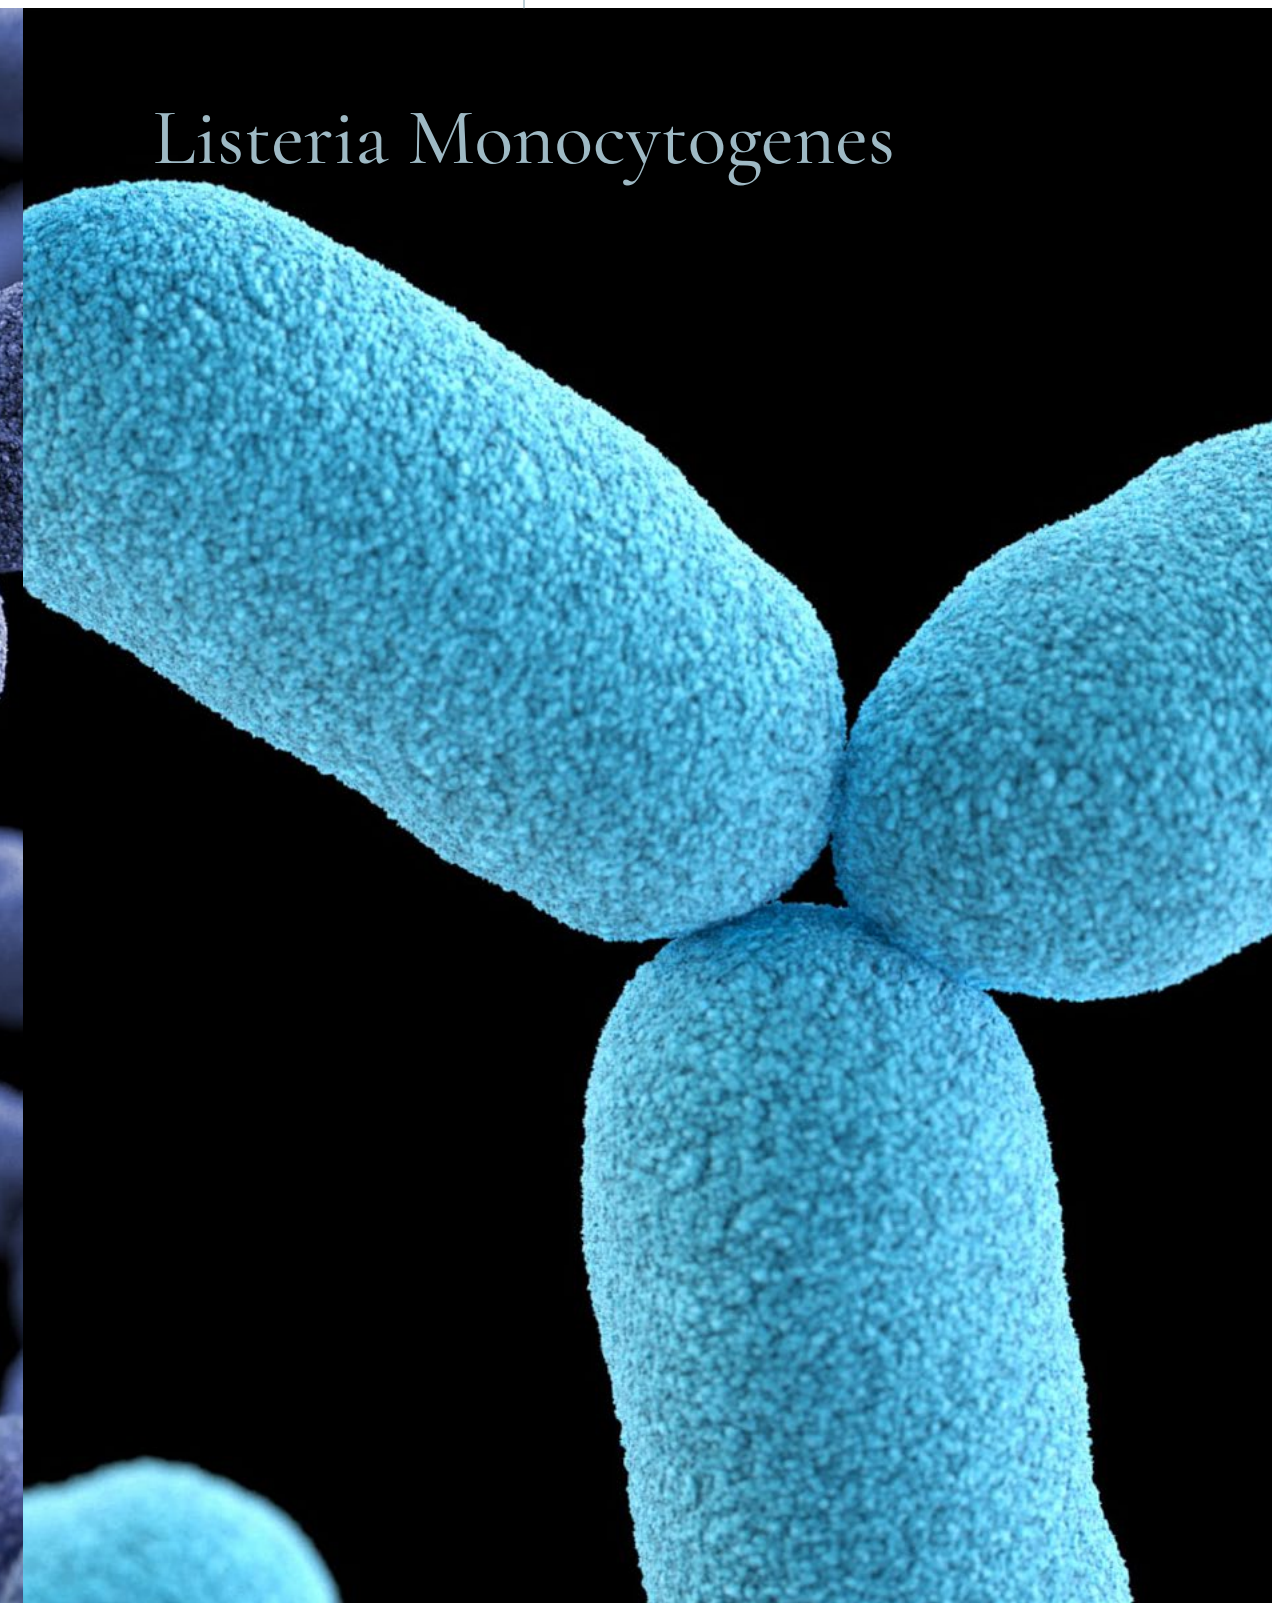

BALDOCER

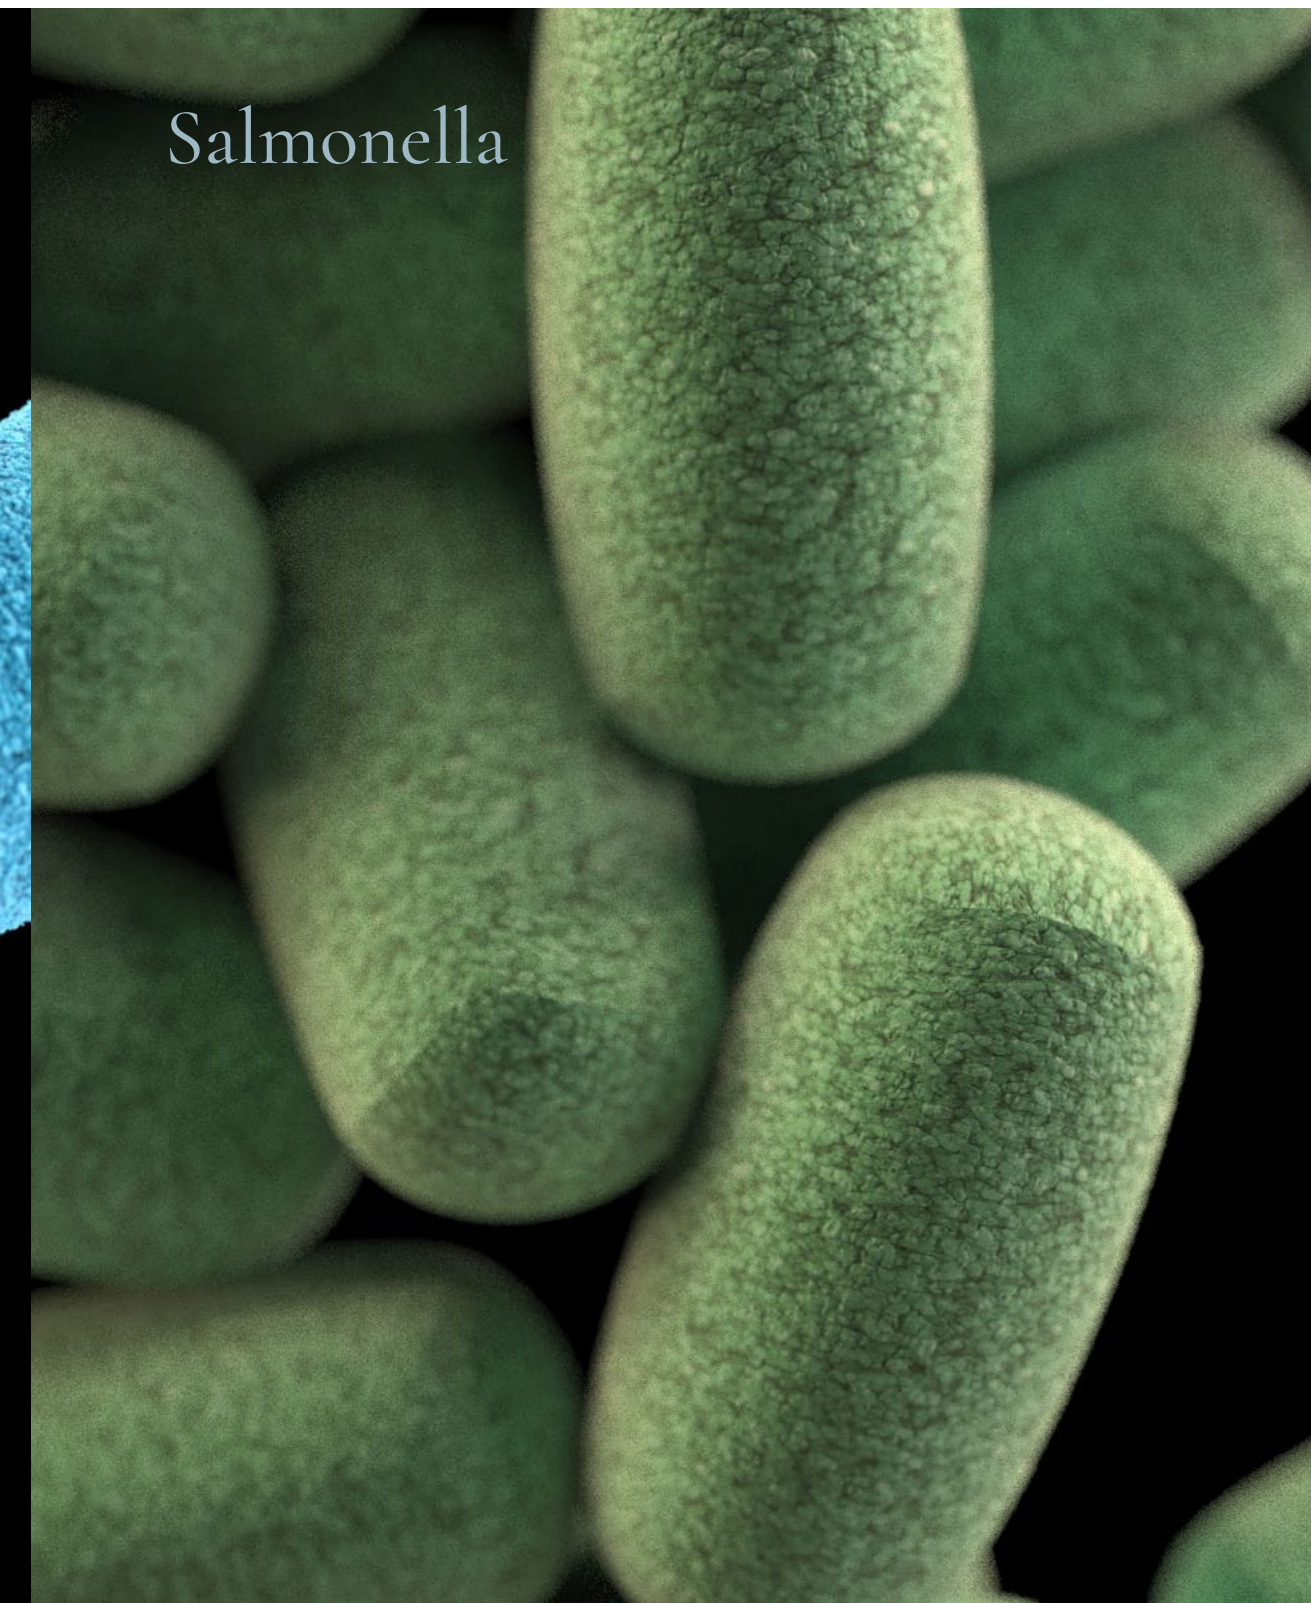

Staphylococcus Aureus

Listeria Monocytogenes

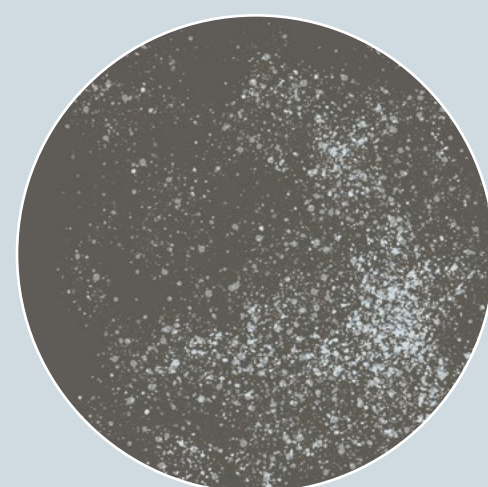

Salmonella

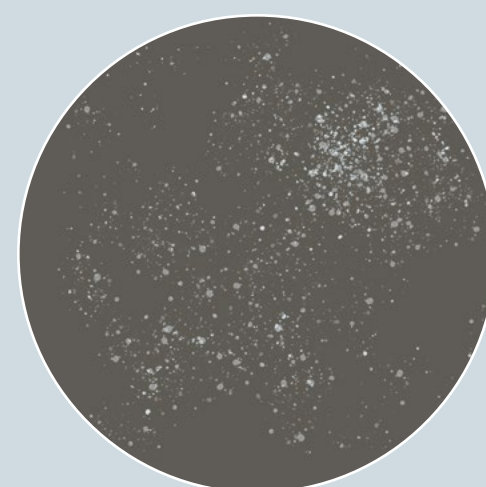

03. This is how bacteria evolve

B|Healthy

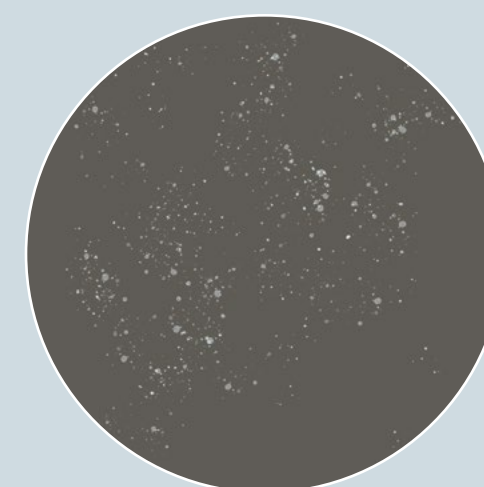

B|Healthy achieves the progressive elimination of bacteria by blocking their development, interrupting their life cycle.

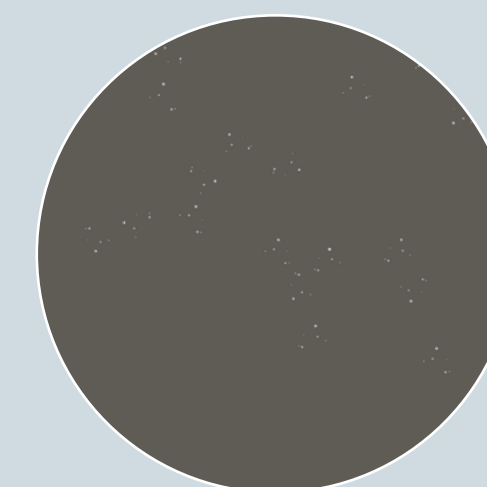

2 h

12 h

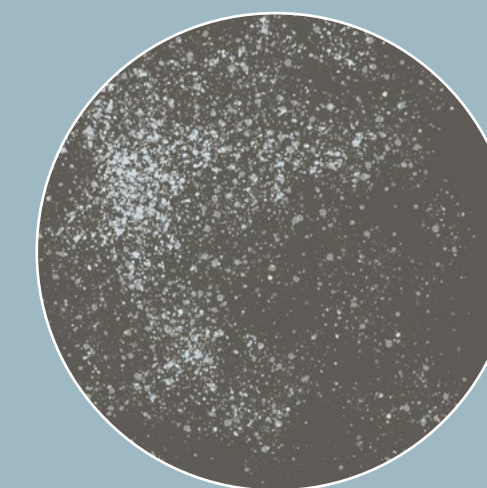

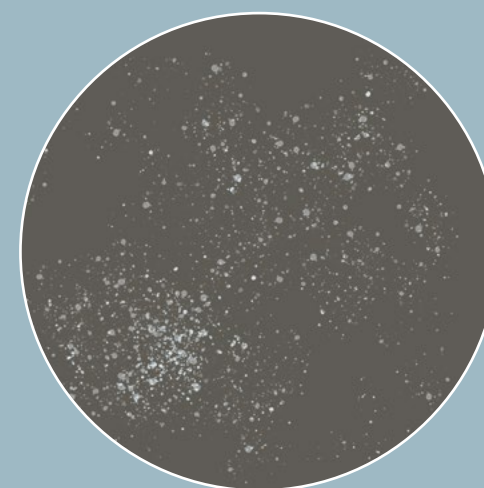

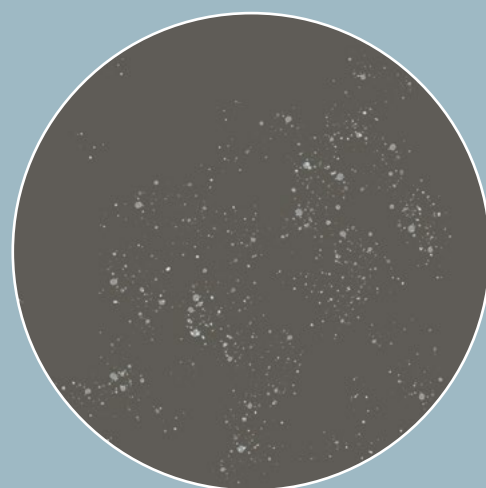

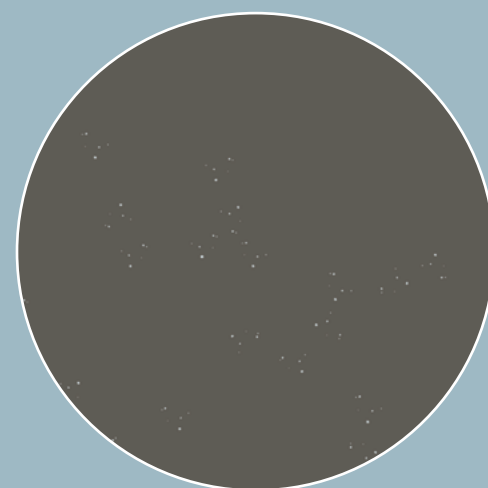

18 h

24 h

On the other hand, in tiles that have not been treated, bacterial reproduction acts in the opposite way to the B|Healthy product family.

04. Advantages of using B|Healthy

Total protection

The treatment to which the tiles are subjected in their production phase ensures permanent and constant protection throughout the life cycle of the product.

It is not toxic

It is free of toxic substances. Its use is allowed in all types of facilities and buildings.

Design

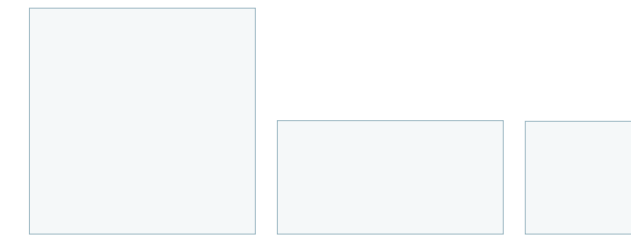

The treatment is independent of the design of the material, so the evolution of B|Healthy does not depend on aesthetics and can be adapted to any type of environment.

05. First collections

Matter

Matter Ivory Natural 60x120 cm.
Matter Ivory Natural 120x120 cm.

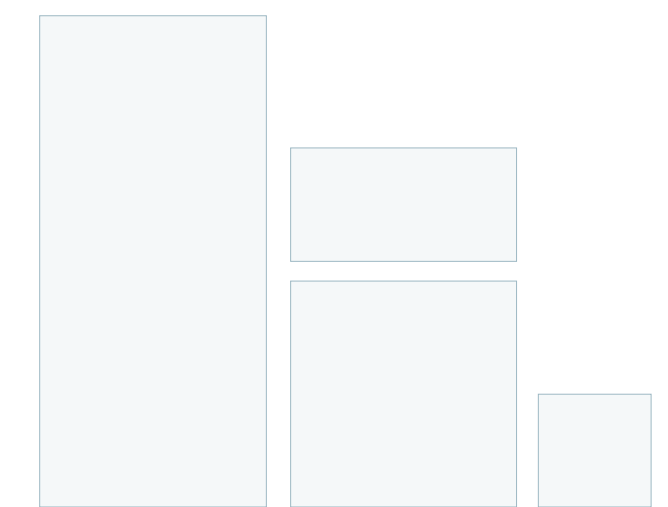

Available sizes

60x120 cm. / 23,62" x 47,24"
120x120 cm. / 47,24" x 47,24"
60x60 cm. / 23,62" x 23,62"

Glaciar

Glaciar 260x120 cm.
Grafton Silver 60x60 cm.

Available sizes

260 x 120 cm. / 102,36" x 47,24"
60x120 cm. / 23,62" x 47,24"
120x120 cm. / 47,24" x 47,24"
60x60 cm. / 23,62" x 23,62"

Giving answers
to the challenges of our time.

06. Certified tests

Test International — Norm JIS-Z 2801:2010

Determination of antibacterial efficiency in treated ceramic surfaces.

The experiments were performed simultaneously on the sample under test.

Untreated tiles.
Normal enamel.

Tiles with antibacterial treatment.
